- Managing and Engaging With an Audience of 7000+ folks (On All Platforms).
- Developing and Executing Developer Outreach and Onboarding Strategies to Promote and Evangelize Eduhub Community.
- Conducting Creative Weekly Online Sessions for Our Audience in order to Engage them.
- Launched Eduhub 25 Colleges Roadshow.

Projects

Crypto Wallet Extension | *JavaScript, ReactJS, ExpressJS, NodeJS, Moralis API* | Link
- Built a Chrome Extension of a Crypto Wallet using which any User can Perform Numerous Operations similar to any other Crypto Wallet.
- Users can store their NFTs, Crypto Tokens, and even Transfer and Exchange funds.

BlockChat | *TailwindCSS, ShadCN, TypeScript, NextJS, Push Protocol, Lighthouse Protocol, EthersJS, WAGMI* | Link
- BlockChat is a cutting-edge Platform that combines the power of Decentralized Communication with the Convenience of Modern Chatting Features.
- With BlockChat, you can Securely Chat with your friends and colleagues while keeping your Data Decentralized and away from Centralized Servers.

NitroGPT Navigator | *GPT-3.5, OpenAI, Python, LangChain, PineconeDB, Streamlit* | Link
- NitroGPT Navigator is an Advanced AI Chatbot that leverages cutting-edge Technologies, including OpenAI's GPT-3.5 Model, LangChain, and Pinecone Vector Database.
- It's Designed to Provide accurate and Context-aware answers to any Questions Related to the Content on routerprotocol.com.

AuditGuard | *TailwindCSS, TypeScript, ReactJS, Flask, OpenAI, LangChain* | Link
- AuditGuard is a Powerful Tool Designed to Audit Smart Contracts with High Accuracy.
- Leveraging the Capabilities of Large Language Models (LLMs) Powered by OpenAI and LangChain, this Project ensures thorough Smart Contract Analysis, Generating Test Codes, and even Facilitating Code Refactoring.

Technical Skills

Languages: JavaScript, Typescript, Python, Solidity, Rust
Developer/Design Tools: Docusaurus, VS Code, Postman, Git/GiHub, Figma, Canva
Databases: MongoDB, Mongoose ODM, Prisma ORM, PineconeDB
Technologies/Frameworks: Bootstrap, TailwindCSS, ShadCN, jQuery, REST APIs, EJS, Stripe, ReactJS, Tremor 3.0, Socket.io, NextJS, PassportJS, AuthJS, Truffle, Hardhat, EthersJS, Langchain
Backend Technologies: GraphQL, ExpressJS, NodeJS, Flask
Libraries: OpenZeppelin, Moralis, Solana/web3.js, Streamlit, Pandasai
Protocols: Router Protocol, Push Protocol, Lighthouse Protocol, IPFS, Huddle01
